

Freetrack<sup>®</sup> 2

**compactus<sup>®</sup>**  
storage and filing

"The stylish and strong bulk filing and storage system"

The patented Freetrack<sup>®</sup> 2 Compactus<sup>®</sup> range is strong and durable, combining bulk filing and storage capacity together with speed of access. Unlike traditional 'base mounted' mobile storage systems, Freetrack<sup>®</sup> 2 is far more flexible and not restricted by base length. You can tailor a system to suit your available space by simply designing the tracks to the required length. All this, and Freetrack<sup>®</sup> 2 looks great as well'.

## Features

- Create an extremely efficient high density filing and storage system by mounting Ultima<sup>®</sup> CI-80 shelving onto the attractive Freetrack<sup>®</sup> 2 track and runner system
- The innovative low profile track design provides great strength and enhanced mobility for the Freetrack<sup>®</sup> 2 base runners
- Attractive clip on track ramps further reduce trips hazards and allow for the movement of trolleys or wheelchairs between shelving bays. The pivoting ramps follow the contour of the floor and provide a seamless transition between the flooring material and track
- Freetrack<sup>®</sup> 2 needs no fixing into the floor. This eliminates any permanent damage to floors and flooring material, plus allows for cost the effective relocation or reconfiguration of the systems as needs arise.
- The unique track based anti-tilt mechanism secures all shelving, further enhancing operator safety
- Easily add to your Freetrack<sup>®</sup> 2 system, or upgrade to mekdrive<sup>®</sup>, should the need arise
- A choice of locking options provides added security.

## Dimensions & Specifications

Drive type:  
• Push Pull

Bay dimensions (based on Ultima<sup>®</sup> CI-80 shelving):

- Unit heights (from floor) – 1940mm, 2240mm, 2465mm
- Shelf Widths – 750mm, 900mm, 1200mm
- Shelf Depths – 300mm, 400mm, 450mm, 600mm

Maximum unit width:

- Up to 1800mm made up of one or more of the standard bay shelf widths

Bay carrying capacity:

- Up to 500kgs (refer to Ultima<sup>®</sup> CI-80 specifications for individual shelf loading capacity)

Maximum movable block load:

- Up to 1000kgs

Freetrack<sup>®</sup> 2 is effortlessly moved using an attractive aluminium handle. All units have the option to be lockable for added security

The unique runner mounted anti-tilt mechanism secures the shelving units to the tracks

Stylish & sleek track system with ramps provides easy access between shelving bays

The optional pivoting ramps follow the contour of the floor and provide a seamless transition between the flooring material and track
